PROFESSIONAL SUMMARY

Python Developer with hands-on experience in Django, Flask and SQL. Built and deployed full-stack web applications with expertise in authentication, CRUD operations, REST APIs and database management. Passionate about backend development and problem solving.

EDUCATION

- **Shivalik College of Engineering** Dehradun, Uttarakhand
Bachelor of Technology (Computer Science & Engineering) Aug 2021 – Jul 2025
- **Sanatan Dharma Inter College** Muzaffarnagar, Uttar Pradesh
Intermediate 2020 – 2021
- **Adarsh Inter College** Haridwar, Uttarakhand
High School 2018 – 2019

SKILLS SUMMARY

- **Languages:** Python, SQL, HTML, CSS, JavaScript
- **Frameworks:** Django, Flask, Bootstrap
- **Databases:** SQLite, MySQL
- **Tools:** Git, GitHub, VS Code
- **Cloud:** Oracle Integration Cloud (OIC), Oracle Fusion
- **Core Skills:** REST APIs, CRUD Operations, Authentication, Responsive Web Development

EXPERIENCE

- **Skylar Technology** Oracle Integration Cloud (OIC) Intern
May 2025 – Jul 2025
 - **Oracle Integration Cloud:** Gained hands-on experience in Oracle Integration Cloud (OIC) and Oracle Fusion Applications.
 - **Integration Development:** Developed integrations using REST Adapter, SOAP Adapter, Oracle ERP Cloud Adapter and File/FTP Adapter.
 - **Oracle Fusion:** Worked with BI Reports, ESS Jobs, Supplier Management and FBDI imports.
 - **Learning Outcome:** Improved understanding of enterprise integrations, cloud applications and API-based development.

PROJECTS

- **Expense Tracker** Django — SQLite — Bootstrap
Personal Project
 - **Authentication & Expense Management:** Developed a secure expense tracking application with user authentication and user-specific expense management using Django ORM.
 - **Dashboard:** Built an interactive dashboard displaying total expenses, monthly expenses, salary and remaining balance using aggregation queries.
 - **Features:** Implemented CRUD operations, search functionality and pagination to efficiently manage expense records.
 - **Repository:** [GitHub](#)
- **Library Management System** Django — SQLite — Bootstrap — Render
Personal Project
 - **Authentication:** Implemented secure user authentication, authorization and email notifications for library users.
 - **Library Management:** Developed complete CRUD functionality to manage books and library records using Django ORM.
 - **Deployment:** Designed a responsive Bootstrap interface and deployed the application on Render with SQLite database integration.
 - **Repository:** [GitHub](#) — [Live Demo](#)
- **Jarvis AI Voice Assistant** Python — Google Generative AI
Personal Project
 - **AI Integration:** Developed an AI-powered desktop voice assistant using Python and Google Generative AI for conversational responses.
 - **Speech Processing:** Integrated SpeechRecognition and pyttsx3 to enable speech-to-text and text-to-speech functionality.
 - **Automation:** Automated desktop tasks including opening applications, web search and system commands through voice interaction.
 - **Repository:** [GitHub](#)

CERTIFICATIONS

- **AI-900: Microsoft Azure AI Fundamentals:** Microsoft Certified
- **Python for Beginners:** Simplilearn
- **Introduction to Data Science:** Infosys Springboard
